

Hot Air Oven

Better Mineral / Glass wool / Blanket Insulation keeps the surface of the instruments from being Burnt
Silent Hot Air Blower, unique Design of Air Circulation provide throughout uniform air movement & improved Temperature distribution.

Kanthal A-1 super quality coil shaped heaters duly embedded / wound on the sides and bottom for better accuracy.

Full features with Microprocessor Based PID Temperature Controller Cum Indicator.

Specification:

Size of working chamber :

14 inch X 14 inch X 16 inch or Custom specified spec.

Material of construction Inner Camber: S.S.

Material of construction Outer Camber: M.S with Powder coated finished.

Temperature range : Ambient to 250°C.

Temperature control method: PID Based Temperature Controller

Control Accuracy: +/- 1°C

Air circulation : Radial fan (It saves power at least 20% by re-circulating the same hot air inside the oven).

Timer : Digital presettable Timerh range up to 999 minutes with Buzzer.

Paint : Powder coated & Chrome finished
